Invitation: LASAN's 3rd Technical Advisory Group meeting for Hyperion 2035

# HYPERION 2035

---

## Technical Advisory Group (TAG)

Dear Becky,

Please RSVP today for the third meeting of the Hyperion 2035 Technical Advisory Group (TAG) to be held on Wednesday, October 27, 2021 from 12:30pm to 3:30pm. The topic will be Hyperion 2035 RO Concentrate.

The TAG will discuss multiple topics related to the proposed advanced treatment process for the Hyperion Water Reclamation Plant (HWRP) and outfall discharges to the Santa Monica Bay as part of LA Sanitation and Environment's (LASAN) Hyperion 2035 and Zero Wasted Water. We are convening key environmental nonprofit organizations and academia as part of

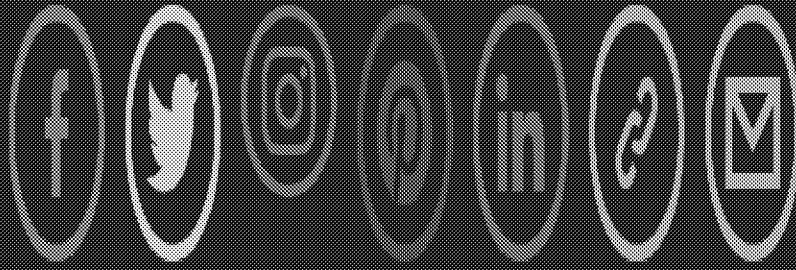

the TAG for the purpose of collaborating on recommendations for achieving 100% water recycling at HWRP and the protection of the Santa Monica Bay. The TAG will meet every two to three months throughout 2021 and 2022. Meetings will be held online due to COVID-19 protocols. Community Advisory Group (CAG) members are invited to observe if they wish.

In this third TAG workshop, we will be discussing RO concentrate, current discharges, and what the future may bring with the Hyperion 2035 Program. TAG members will have the opportunity to discuss privately and share their outcomes with the rest of the attendees.

**REGISTER NOW**

If you are unable to register via Eventbrite or if you have specific questions, please email [sanrecycledwater@lacity.org](mailto:sanrecycledwater@lacity.org).

An agenda will be shared prior to the start of the meeting, along with the Zoom link. We hope you can make it!
